

Experiment 03 - Exercise 07: Divisible by 5 or 7

Tofik Ali

February 14, 2026

Objective

List and count numbers between 1 and 100 divisible by 5 or 7.

Input

No input.

Output

List of numbers and their count.

Approach

Iterate from 1 to 100 and filter using the divisibility condition.

Time Complexity

$O(100)$ which is constant.
