Experiment 02 - Exercise 01: Divisible by 3 and 5

Tofik Ali

February 14, 2026

Objective

Check whether a given number is divisible by both 3 and 5.

Input

An integer `n`.

Output

Print whether `n` is divisible by both 3 and 5.

Approach

Use the condition `n % 3 == 0` and `n % 5 == 0`.

Time Complexity

`O(1)`.
