

Experiment 01 - Exercise 11: Truth Table for Bitwise Operators

Tofik Ali

February 17, 2026

Objective

Print the truth table for bitwise operators $\&$, $|$, and $\wedge$ for inputs $a, b \in \{0, 1\}$.

Input

No input (use $a, b \in \{0, 1\}$).

Output

A table showing $a\&b$, $a|b$, and $a\wedge b$.

Approach

Use nested loops over values 0 and 1 and print results.

Time Complexity

$O(1)$ (fixed small table).
