

# Experiment 01 - Exercise 11: Truth Table for Bitwise Operators

Tofik Ali

February 20, 2026

## Objective

Print the truth table for bitwise operators  $\&$ ,  $|$ , and  $\wedge$  for inputs  $a, b \in \{0, 1\}$ .

## Input

No input (use  $a, b \in \{0, 1\}$ ).

## Output

A table showing  $a \& b$ ,  $a | b$ , and  $a \wedge b$ .

## Approach

Use nested loops over values 0 and 1 and print results.

## Time Complexity

$O(1)$  (fixed small table).
