

Experiment 05 - Exercise 01: Count 0-3 Values

Tofik Ali

February 20, 2026

Objective

Count how many times values 0, 1, 2, and 3 occur.

Input

Number of values and the list of integers.

Output

Frequency for each value from 0 to 3.

Approach

Use a dictionary to count occurrences while scanning input.

Time Complexity

$O(n)$.
